

Glimpses on Brazilian and Indian Gondwana II

Algumas observações sobre o Gondwana brasileiro e indiano II

ACKNOWLEDGEMENTS

This volume, *Glimpses on Brazilian and Indian Gondwana II* comprises of the results of the studies initiated by the first International Scientific Cooperation Project between Brazil and India “*Palaeobotanical Studies in Brazilian and Indian sedimentary basins with special reference to the marine dinoflagellate cysts, Gondwana Flora and their applications*” sponsored by Brazil-CNPq [Conselho Nacional de Desenvolvimento Científico e Tecnológico (CNPq 490829/2007-4)] and India-DST [Department of Science and Technology (RPO 24/2007)], during 2008 to 2010. It is a contribution sequel to the preliminary one, *Glimpses on Brazilian and Indian Gondwana I*, published in the Journal ‘*The Palaeobotanist*’ by the Birbal Sahni Institute of Palaeosciences in Lucknow, India. This volume contains some preliminary observations and other studies pertaining to aspects related to the continental and marine floras of West Gondwana (Brazilian) and East Gondwana (Indian) and their possible correlations. The volume is an outcome of the labor of several hands, failing which it would have been impossible. Therefore we are very grateful for the support and dedication of each one of them whose names have been mentioned in alphabetical order: André Jasper; Átila Augusto Stock da Rosa; Carla T.S. Abranches; Dieter Uhl; Eduardo Premaor; Eliana Schwartz Tavares; Etiene Fabbrin Pires; Graciela Pereira Tybusch; Harinam Joshi; Isa Carla Osterkamp; Isabel Christiano-de-Souza; José Rafael Wanderley Benício; Joseline Manfroi; Juliane Marques-de-Souza; Júnior Bispo de Menezes; Karoline Gonçalves Pereira; Mahesh Bilwa Lingappa; Mahesh Shivanna; Margot Guerra-Sommer; Maria Dolores Wanderley; Mitsuru Arai; Neerja Jha; Paulo Eduardo De Oliveira; Rafael Spierkermann; Rajni Tewari; Ricardo da Cunha Lopes; Sandra Eiko Mune; Sankar Suresh Kumar Pillai and Sarah Gonçalves Duarte.

We also express our sincere gratitude to the Chief Editor of the journal *Geologia USP*, Prof. Dr. Wilson Teixeira and Head of the Publishing Sector IGc / USP, Mr. Daniel Machado, for all technical support in the publication of this volume.
